VESTAS ROMANIA

EU GREEN DEAL ALIGNED CERTIFICATION

Issued: July 11, 2025

EU Green Deal Aligned Certification

This document certifies that the 'Vestas Romania' initiative operates in full alignment with the European Union Green Deal framework, committing to the goal of carbon neutrality by 2050.

By adhering to strict compliance protocols and ISO-certified standards, Vestas Romania supports not only renewable energy deployment but also EU-wide policies for sustainability, resilience, and environmental stewardship.

Alignment with European Standards

Vestas Romania is under the supervision of Vestas Estonia OÜ, ensuring that all operations meet the highest international benchmarks.

• ISO 9001 – Quality Management • ISO 27001 – Information Security • GDPR – Data Protection • AML/KYC – Anti-Money Laundering & Customer Verification

These certifications and standards form the backbone of our commitment to transparency and trust.

Commitment to the Future

Our pledge is simple yet powerful: every investment, every turbine, and every operation is a step towards a greener, more sustainable Europe.

This certification is not a one-time statement – it is an ongoing promise to stay aligned with EU regulations, maintain independent audits, and consistently deliver on our sustainability mission.
