VESTAS ESTONIA OÜ

PRESS RELEASE

Issued: June 02, 2025

Vestas Estonia OÜ Announces Strategic Partnership with Vestas Romania

Tallinn, Estonia – Vestas Estonia OÜ (Reg. nr. 16522545) is proud to formally announce the launch and supervision of the 'Vestas Romania' initiative, a bold new micro-investment platform focused on renewable wind energy.

This strategic collaboration is more than just a corporate announcement – it is a clear commitment to the future of green energy, compliance, and innovation. Vestas Romania will serve as a vital component in the broader Vestas EU network, helping to connect investors, partners, and communities across the European Union.

The initiative reflects a strong dedication to operational transparency and alignment with European standards, adhering to ISO 9001, ISO 27001, GDPR, and AML/KYC policies.

Executive Statement

Henrik Landgren, Director of Vestas Estonia OÜ, said: 'Vestas Romania represents a crucial milestone in our vision to democratize access to renewable energy investment. By bringing micro-investments to the forefront, we empower individuals and organizations to participate in Europe’s transition to a cleaner energy future.'

The press release also emphasizes that Vestas Romania will operate under direct oversight of Vestas Estonia OÜ, ensuring all financial and operational processes comply fully with EU regulations.

Commitment to the EU Green Transition

This partnership is a cornerstone of our EU-wide mission. It strengthens our ability to promote clean energy, while building trust and delivering measurable sustainability impacts. Investors and stakeholders can be confident that every element of Vestas Romania’s operations has been designed with accountability, security, and compliance in mind.
